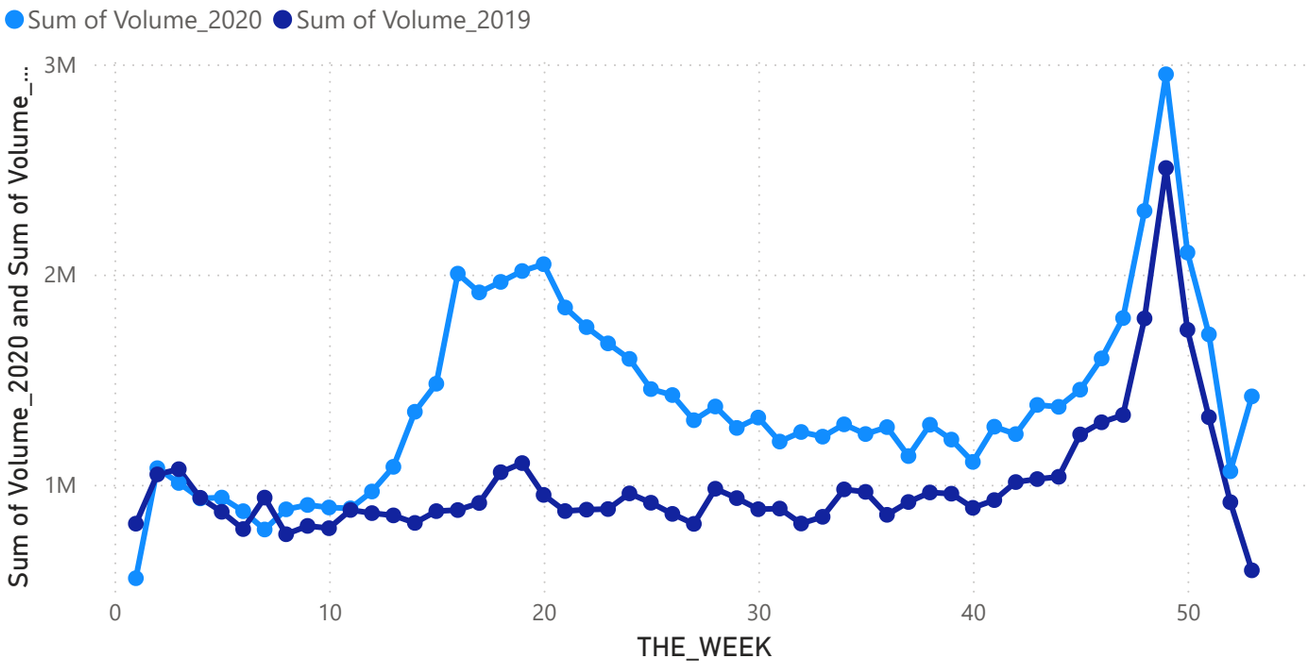
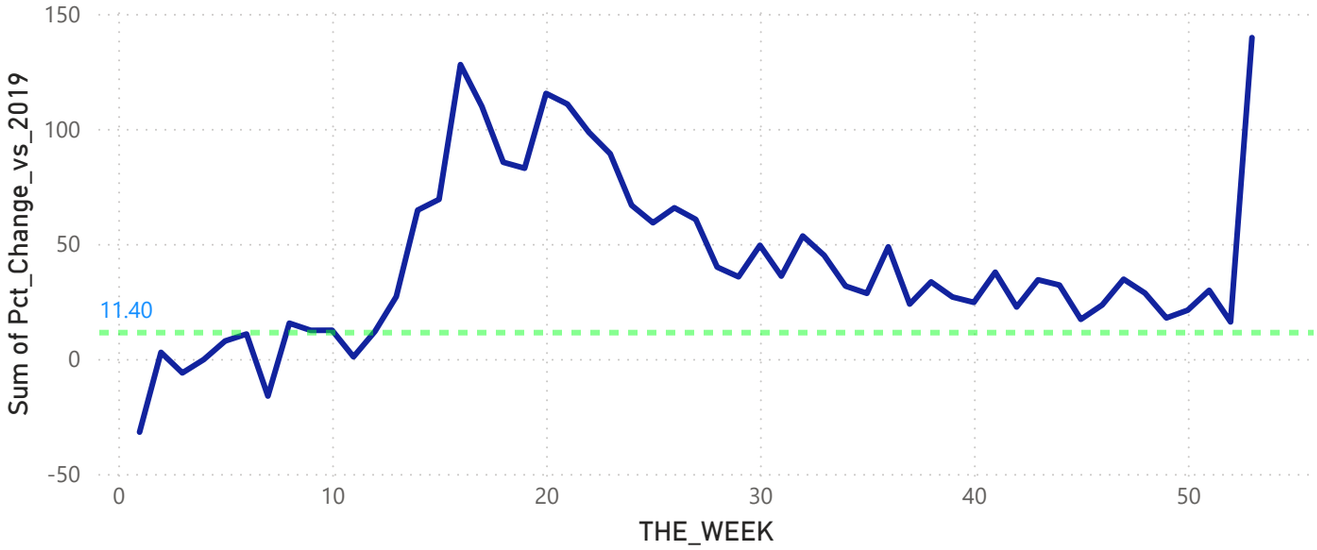
- 2020 peak season outperformed 2019 peak season by 27.26%.
- Most customers were either High Growth or Declining.

Weekly Parcel Volume: 2019 vs 2020



2020 Weekly Growth vs 2019



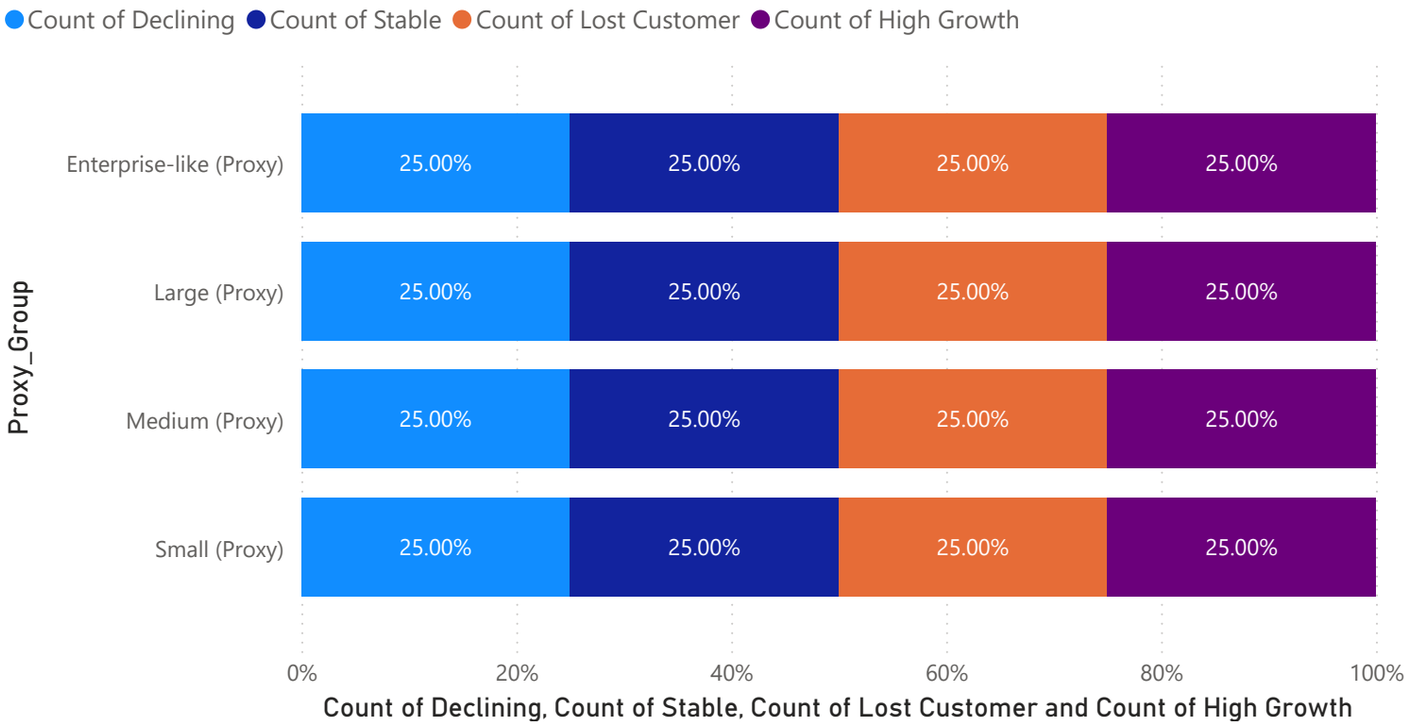
COVID timeline context

- 11 Mar 2020: WHO characterised COVID-19 as a pandemic
- 13 Mar 2020: Canada advised against non-essential travel
- 18–21 Mar 2020: Canada-US border restrictions introduced
- 25 Mar 2020: Mandatory isolation for returning travellers

Interpretation

- Week 11 remained close to 2019 levels
- Week 12 is the first clear impact week
- Weeks 13–16 show sharp acceleration

Customer Mix by Proxy Group



Important note
Official customer-group labels and discount tiers were not provided in the dataset.
Proxy groups are based on 2019 annual parcel-volume quartiles.
Revenue is estimated using the base parcel rate of $22 only.
